

## Mechanical Maintenance Scheduler and Coordinator - Gent

### Cargill

Cargill provides food, agriculture, financial and industrial products, and services to the world. Together with farmers, customers, governments, and communities, we help people thrive by applying our insights and over 150 years of experience. We have 160,000 employees in 70 countries who are committed to feeding the world in a responsible way, reducing environmental impact, and improving the communities where we live and work.

### Job location: Ghent, Belgium

The Cargill site in Ghent consists of a rapeseed/soybean crush plant, a vegetable oil semi-refinery, a multi-feedstock biodiesel plant & a waste-based biodiesel plant

### Position Purpose & Impact

The Mechanical Maintenance Scheduler and Coordinator will coordinate the repair and maintenance of machinery, vehicles, and equipment. We seek a professional who will focus on tactical and operational activities and align and implement reliability practices and programs. In this role, you will lead all aspects of maintenance, repair and planning and stay up to date with industry best practices.

### Key Accountabilities

- Operate, monitor, and maintain machines and production equipment.
- Collaborate with senior team members to identify opportunities to improve reliability and resolve acceptable risk tolerance for equipment.
- Engage the employees responsible for the repairs and maintenance of equipment and machines.
- Plan and prioritize work orders, scheduling overall repair and maintenance to minimize production downtime and disruptions.
- Other duties as assigned
- Responsible for personnel decisions related to hiring, performance and disciplinary actions for your direct reports. You will also spend time completing the same tasks as employees on your team.

### Qualifications

#### Minimum Qualifications

- Bachelor's degree in a related field or equivalent experience
- Experience supporting audit compliance and root/cause analysis processes
- Minimum one year of directly related work experience

#### Preferred Qualifications

- An overall experience of 6-7 years in a process environment
- One year of supervisory experience
- Strong knowledge of mechanical equipment and scheduling
- Good knowledge of Dutch

### Our Offer

In return for your expertise and commitment, we will provide a fast paced stimulating international environment, which will stretch your abilities and channel your talents. We also offer competitive salary and benefits combined with outstanding career development opportunities in one of the largest and most solid private companies in the world.
