

Project Engineer - Ghent

Cargill

Cargill provides food, agriculture, financial and industrial products, and services to the world. Together with farmers, customers, governments, and communities, we help people thrive by applying our insights and over 150 years of experience. We have 160,000 employees in 70 countries who are committed to feeding the world in a responsible way, reducing environmental impact, and improving the communities where we live and work.

Job location: Ghent, Belgium

The Cargill site in Ghent consists of a rapeseed/soybean crush plant, a vegetable oil semi-refinery, a multi-feedstock biodiesel plant & a waste-based biodiesel plant

Job Purpose & Impact

The Build Project Engineer will plan, monitor, execute and coordinate low complexity build projects. In this role, you will ensure that the goals and objectives are accomplished within the prescribed timeframe and budget. You are the lead engineer for civil, mechanical and piping disciplines and work closely with the electrical, instrumentation and automation engineers.

Key Accountabilities

- Manage low complexity projects and act as the lead engineer for civil, mechanical and piping disciplines for all projects.
- Help implement the strategic vision to the project team and ensure best practices are incorporated in project delivery to champion safety, meet regulatory requirements and deliver build projects with excellence.
- Assist in the implementation of project management best practices based on thorough knowledge.
- Collaborate with cross functional professionals to leverage knowledge and strategies to effectively plan projects.
- Proactively plan and schedule project progress and key metrics to mitigate risk and increase project performance.
- Collaborate with business stakeholders to ensure the business value and benefits are enabled.
- Provide engineering support to plant personnel.
- Other duties as assigned

Qualifications

- Bachelor's degree in industrial engineering or in a related field or equivalent experience
- Two years of related work experience is preferred
- Dutch speaking or willing to learn
- English and/ or French are a plus
- Other minimum qualifications may apply

Our Offer

We provide a fast paced stimulating international environment, which will stretch your abilities and channel your talents. We also offer competitive salary and benefits combined with outstanding career development opportunities in one of the largest and most solid private companies in the world.
